Internal High Performance  
 Antenna Technology

The Wireless Router 300N X3 makes it possible to wirelessly share files and broadband Internet access, as well as the peripheral devices attached to the desktop PC's and notebooks in your network. This 300N router guarantees optimal performance with demanding applications, such as HD video and audio, VoIP, multiplayer gaming and the transfer of large amounts of data with speeds up to 300 Mbps. Thanks to the WPS hard button, you can establish a secure wireless connection with just the push of a button. The 3 internal antennas reduce "dead spots" and guarantee an optimal coverage on all the floors of the house including the garden and home-office.
